

SOFTWARE & INDUSTRIAL IOT

For Manufacturing & E-Commerce Websites

DESTINE
TECHNOLOGIES

By Kiran Desai B.E.,M.S.(Industrial Engg.,USA)

About Us

- We focus on Digital Services.
- Software Solutions for Manufacturing Companies, Trading Companies and E-commerce-Websites.
- Industrial IOT (Internet of Things) Solutions.
- Our solutions are Cloud-based and designed for Web, Mobiles and Tablets.
- Management has 30+ years experience in Manufacturing

Manufacturing Solutions

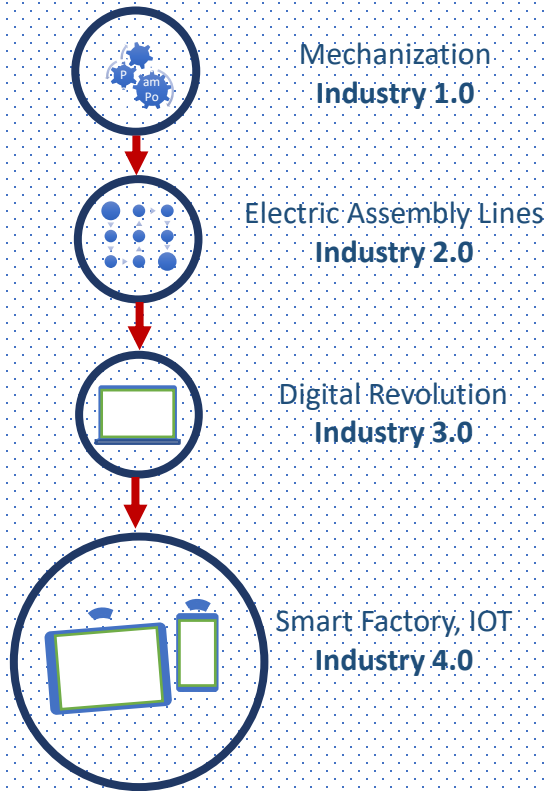

- **Production Management** with Bill of Materials, Manufacturing Work Orders, Production Scheduling, Total Inventory Tracking with Barcode & RFID integration and Product Costing.
- **Quality Control** records and data analytics.
- **Computerized Asset & Maintenance Management System (CMMS)** Industrial Asset Records with maintenance work orders, spare parts management and safety procedures.
- **Industrial IOT** solutions for Monitoring Factories.
- **Cloud Based**

E-Commerce & Cloud based Order Management

- **E-commerce – Online selling Websites**
- **Single Integrated E-commerce & Order Management Solution.** Retail Customers, **End-Users and Distributors** – manage all with one single online solution.
- **Price List specific to a customer or Distributor** Businesses generally offer different prices to customers based on Payment days and Volume of purchase, this solution takes care of the same.

Industrial IOT Solutions

- Industry 4.0 is our prime goal for Manufacturing Companies - **Go Digital.**
- Increase productivity by **Increased Yield** and **Minimum Downtime.**
- Provide right tools in the hands of manufacturers.
- **Application specific sensors** record important data.
- Use **Predictive Analytics** to determine possible machine malfunction and send alerts.

Industrial IOT

Predictive Maintenance

Plant Monitoring

Record Keeping Data-
Logging

Smart Factory Maintenance & Asset Management

A cloud based application for Factory Equipment & Vehicles.

Smart Sensors for
Predictive Analytics
